Content-related bookmarks have been implemented manually and vary from one *ebook* to another, which also means the users can see on their computer screen a new kind of navigation never previously available. Users subsequently have the ability to link directly to specific chapters / pages in the text.

For scholarly research users have new and unprecedented accessibility to the content.

The texts - compiled into literature genres - have been selected by scholars. The author's names are checked against "Personen-Normdatei".

This collection is available for purchase with different electronic access options.

These 1,600 titles / 3,260 *ebooks* in their technical innovativeness support studies well beyond *Literature* such as *History, Area Studies, Cultural Studies and Gender Studies*.
